

## Community Connections Update

The RCGS board voted a few months back to purchase cemetery name signs for our county cemeteries without one, as part of our community connections effort to give back to our community. We have purchased the first two signs for Antioch and Hazen cemeteries. I was able to be present while our signs were being made by the Reno County Public Works Department. It was an interesting experience. My thanks to David McComb, Director, for working with us on this project.

Left: Antioch Cemetery sign created on software.

Right: David Serviss preparing to print sign.

Left: Rick Little preparing sign lettering for Antioch Cemetery.

Right: Hazen Cemetery sign lettering preparation.

Each 25 x 30 sign will cost \$65. This cost includes the u-channel post and hardware. Installation arrangements will be made with each location. Below is a list of cemeteries without a sign. Contact will be made with responsible parties to obtain permission for sign placement, as funds become available for this project. If you would like to sponsor a sign or contribute toward this project please mail your tax deductible contributions to our post office box. The Antioch and Hazen signs will be installed very soon.
